

/api/mcu/collections

Method: [GET](#)

Special setup of collections. Currently used when you expect to find a collection of movies, even if they are not named the same.

```
▼ [
  ▼ {
    "collectionid": "2",
    "collectionName": "Captain America",
    ▼ "ourSortOrder": [
      "mcutime",
      "premiere",
      "season",
      "episode"
    ]
  },
  ▼ {
    "collectionid": "1",
    "collectionName": "The Avengers",
    ▼ "ourSortOrder": [
      "mcutime",
      "premiere",
      "season",
      "episode"
    ]
  }
]
